

GJW Superswivel

(also called GJW swivelshackle)

This shackle replaces the longer connection of anchor 'D' endshackle - swivelforerunner - kenterjoiningshackle and makes sure you need less space.

The GJW Superswivel can be connected directly onto the anchor shank on one side and the other side fits directly to the first common link on the chaincables

CHAIN DIAMETER (IN MM)	A	B	C	D	E	H	K	L	WEIGHT (IN KGS)
