

DANFORTH anchor High Holding Power

The DANFORTH anchor is a High Holding Power stock anchor. High Holding Power means you can reduce 25% of the weight that would normally be required for conventional anchors. The big ones used to be supplied to rigs/dredgers and fixed moorings. This type of anchor is being replaced by other types of mooring anchors in the last 40 years, but still available in certain weights

WEIGHT (IN LBS)	WEIGHT (IN KGS)	A	B	C	D	E
300	135	1350	1130	275	820	560
